Scenario - The Last One In...

* 5 min group

During the first month of school, you notice that Mr. G (one of your more experienced teachers) is arriving at school after the 4-minute warning bell a few times each week. The first few times you notice this, you ask him if everything is ok. He replies, "Top Notch!" and carries on with a smile. One day, you go to Mr. G's classroom to supervise his students prior to his arrival. When he walks in, he simply begins his lesson and gives you the 'thumbs up'. As the year goes on, Mr. G is late once every few weeks. Each time you bring up the notion, he thanks you for having his back. Mr. G seems unfazed and unaffected by your efforts. How will you proceed?
