4. How can system education leaders use AI to inform....

A TRAVELLER.

3 HBR CORE LEADERSHIP QUALITIES

(and none can be replicated by AI)

- Cognisant of mental state, thoughts, emotions, and others
- Guide with empathy/focus
- Fuels agility and zoom
- AI lacks non-linear understanding

AWARENESS

AWARENESS

COMPASSION

- *Care deeply for oneself and others*
- *Empathy is a spark, but it adds action for positive change. Intention to benefit others.*
- *Breeds courage so we can engage fully*
- *Fosters transparency and psychological safety for trusting relationships*
- *AI can only simulate empathy*

AWARENESS

COMPASSION

- *Ability to judge soundly based on experience*
- *Seeing reality clearly, as it really is*
- *Wisdom = integrity, act in line with values*
- *AI has the knowledge but lacks experience and context*
