Learning Intentions

We will:

- Understand that CTS, Career Pathways, Dual Credit, and Collegiate schools are interconnected with multiple entry points for students.
- Explore the roles of CTS, Career Pathways, Dual Credit and Collegiate Schools in supporting students' transition to their career and/or post secondary institution.
- Develop an understanding of how you can better support students in choosing programming that aligns with their career goals.

Success Criteria

You will be able to:

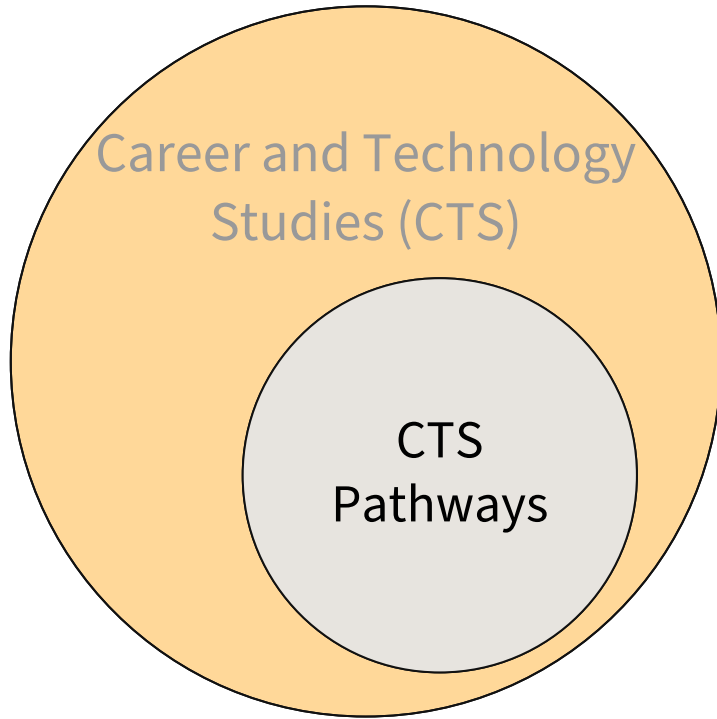

- ☐ Articulate how CTS, Career Pathways, Dual Credit, and Collegiate schools are interconnected with multiple entry points for students.
- ☐ Explain the roles of CTS, Career Pathways, Dual Credit and Collegiate Schools in supporting students' transition to their career and/or post secondary institution.
- ☐ Explore ways to better support students in choosing programming that aligns with their career goals.

Career and Technology Studies (CTS)

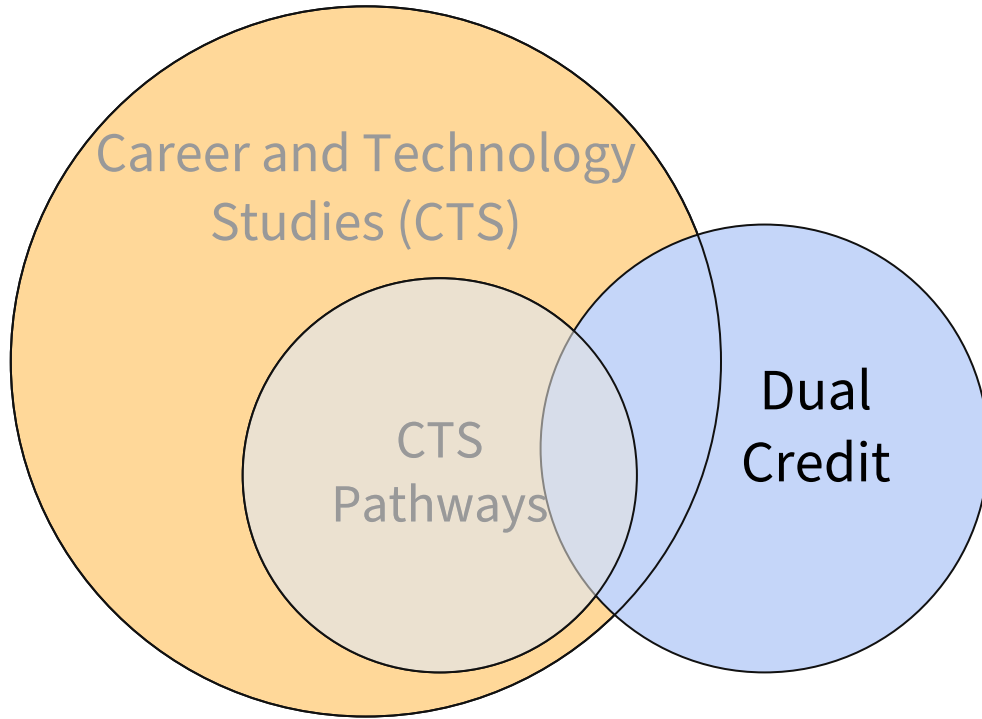

CTS Courses allow students to:

- Explore interests and career options
- Develop skills that can be applied in their daily lives and improve their employability following high school

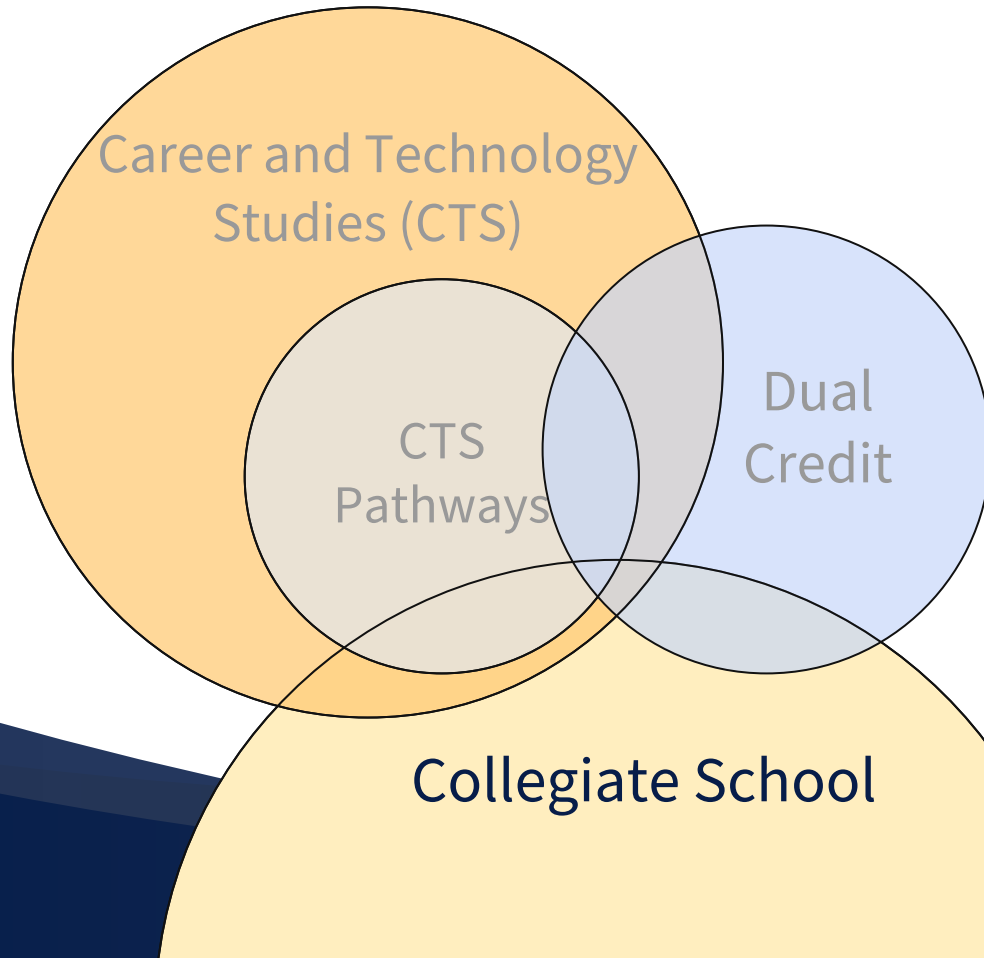

CTS Pathways allow students to:

- explore and acquire the attitudes, skills, knowledge, and values for a potential career
- work toward goals that may include university, college, apprenticeship training, or moving directly into the workforce

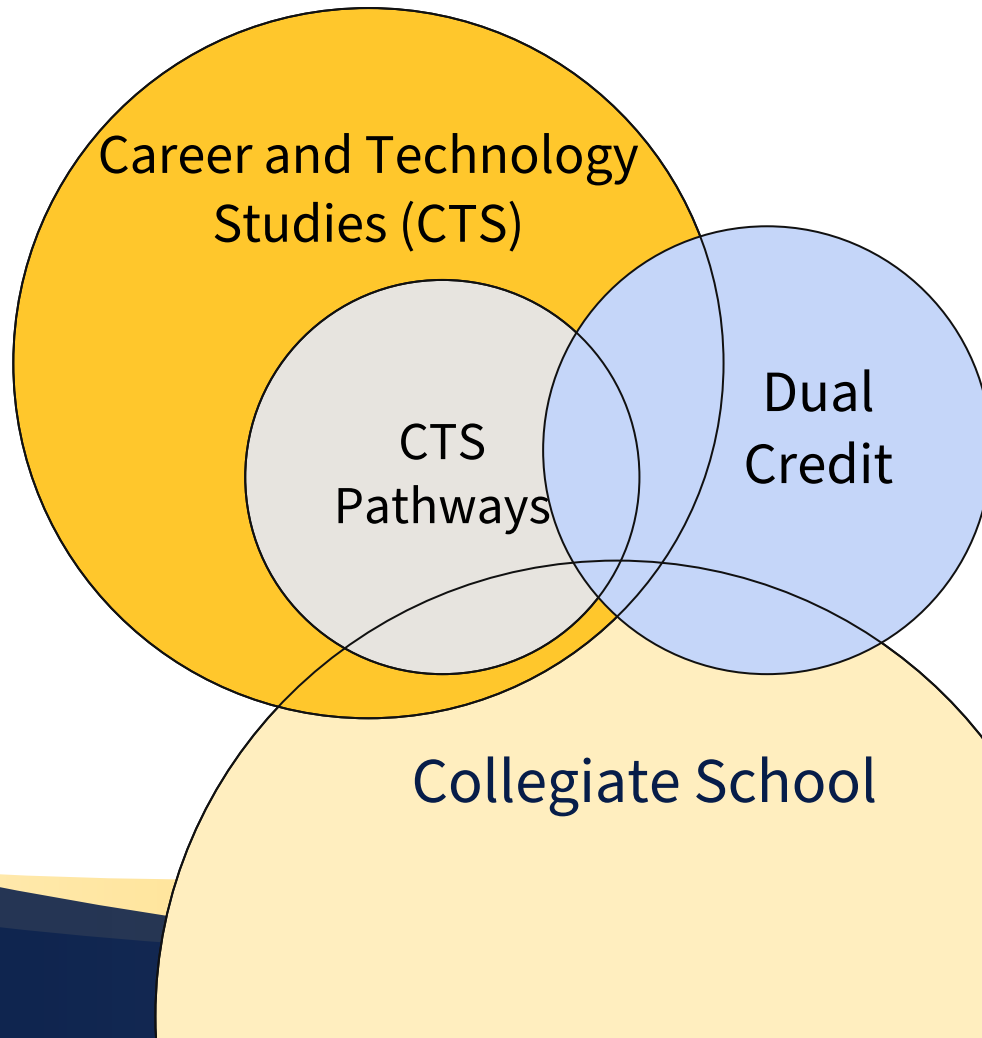

Dual Credit allows students to:

- discover or build on career passions and interests
- to transition to post-secondary or the workplace through partnerships with post-secondary institutions, business or industry

Collegiate Schools

- offer specialized programming in a particular subject or field
- provide all students with enhanced career-focused opportunities
- require a post-secondary partnership

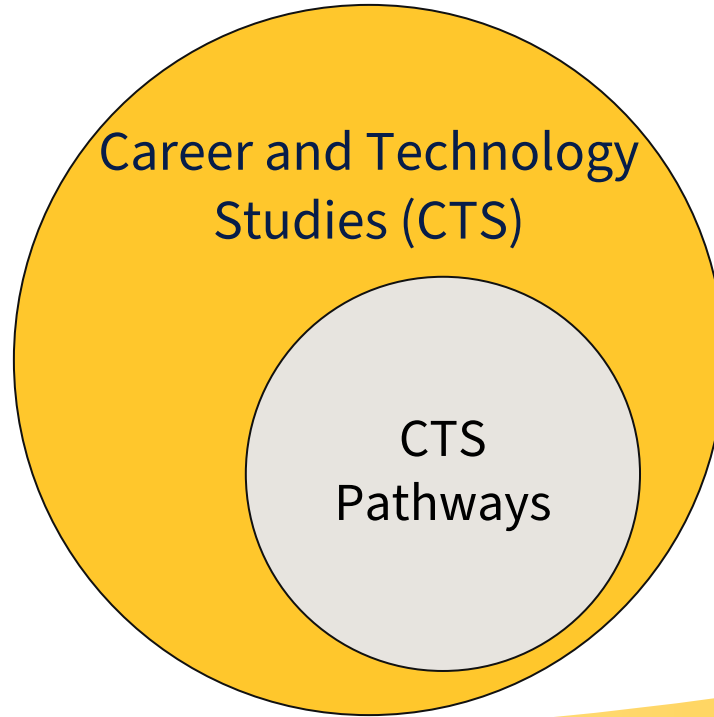

Context Matters

CTS Pathways

- A series of courses that provide a progression of attitudes, skills, knowledge, and values development.
- Formal pathways
 - Credentialed
 - Specialized Skills
 - Skills Canada
 - Journeyperson

Your Context - CTS Pathways

Context Matters

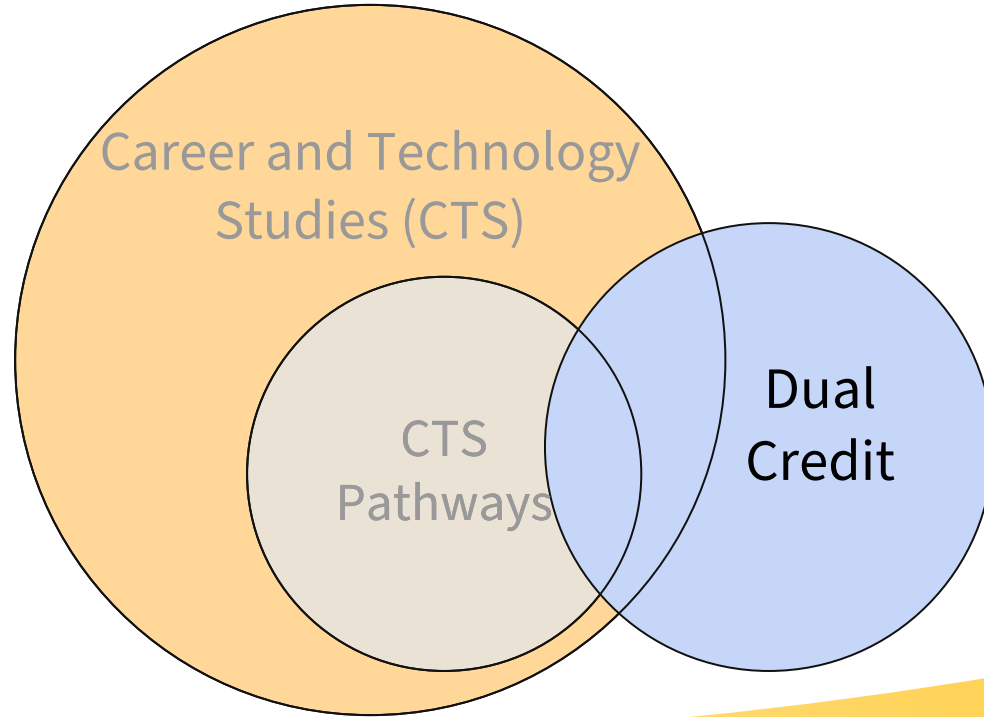

Dual Credit

- 7 Post-secondary Institution partners
- 60+ courses
- Wide variety of career areas
- Online, asynchronous
